

Public Space Mission Fact Cards

Stable public-domain style science facts

Source status: Synthetic public test data. License note: CC0-style sample content created for local RAG testing. No private, personal, confidential, or operationally valid data is included.

A compact set of widely known public space mission facts for citation and extraction testing.

Records

ID	Name	Field A	Field B	Field C	Field D	Field E
MISSION-AP11	Apollo 11	Moon landing	1969	NASA	Neil Armstrong and Buzz Aldrin walked on the Moon.	
MISSION-V1	Voyager 1	Outer solar system	1977	NASA/JPL	Entered interstellar space after the heliopause crossing.	
MISSION-MSL	Curiosity Rover	Mars surface science	2012	NASA/JPL	Landed in Gale Crater.	

Good test questions

Q: What year launched Voyager 1?

Expected: 1977

Q: Where did Curiosity land?

Expected: Gale Crater

Notes

- Mission records use public, widely known historical facts.
- The IDs are added for deterministic QA prompts.
